VOLUNTARY AMENDMENT

Preliminary to the examination of this application, please amend this application by replacing the 3 sheets of drawings originally filed with the 7 sheets of replacement drawings enclosed herewith.

REMARKS

On 27 December 2001, the Applicant filed two patent applications: Application Serial No. 10/026,735 (the '735 Application) and this Application Serial No. 10/026,734 (the '734 Application).

The Applicant mistakenly filed the drawings from the '734 Application with the specification for the '735 Application and the drawings from the '735 Application with the specification from the '734 Application.

The enclosed replacement drawings are the correct drawings for the '734 Application. The enclosed replacement drawings include Figures 1-4, 5A-5I and 6. The Applicant submits that this amendment add no new matter to this application since the features of the Figures submitted herewith are all clearly described in the specification.
